VAIBHAV AGGARWAL

Bachelor of Technology (B.Tech), Electronics & Computer Engineering — Thapar Institute of Engineering & Technology

+91 9041508372 | vaaggarwal123@gmail.com | Delhi, India

EDUCATION

Year	Institution & Degree	Board	Result
2024 – 2028	Thapar Institute of Engineering & Technology — B.Tech	—	CGPA: 7.5
2023 – 2024	Amity International School, East Delhi — Class XII (Science)	CBSE	88.6%
2021 – 2022	Amity International School, East Delhi — Class X	CBSE	85.6%

SKILLS

- Core: Circuit Analysis, Embedded Systems, IoT Fundamentals
- Programming: Python, C, C++ (DSA)
- Web: HTML, CSS, JavaScript (Basics)
- Tools: Arduino IDE, GitHub, Canva, AutoCAD, MATLAB, SolidWorks
- Soft Skills: Teamwork, Communication, Problem Solving

INTERNSHIPS & LIVE PROJECTS

Machine Learning Intern — Echelon Edge *2 Jun 2026 – 16 Jul 2026*

- Researched and implemented machine learning algorithms including Decision Trees, Random Forest, XGBoost, and regression models.
- Developed an NLP-based document retrieval chatbot using Python, spaCy, and BM25.
- Explored embeddings, FAISS, semantic search, and hybrid retrieval for efficient information retrieval.
- Implemented text preprocessing and chunking techniques to improve document search performance.
- Tech stack: Python, spaCy, Pandas, BM25, FAISS, Google Colab, VS Code.

Web Scraping & AI-Based Data Processing — Dimensionless Technologies

- Built Python-based web scraping pipelines using libraries such as BeautifulSoup and Scrapy.
- Automated data extraction and preprocessing from multiple web sources.
- Explored AI/ML models for deriving insights from collected data.
- Managed virtual environments and dependencies across multiple concurrent projects.
- Strengthened understanding of data handling, automation, and real-world applications.

Intern — Oriental Carbon & Chemicals Ltd. *10 Jun 2025 – 30 Jul 2025*

- Assisted engineers with design-related activities and technical tasks.
- Observed and understood industrial processes, instrumentation, and control systems.
- Applied theoretical knowledge to practical industrial scenarios in a manufacturing setup.

TRAINING & CERTIFICATIONS

The AI Engineer Course 2026: Complete AI Engineer Bootcamp

- Completed comprehensive training in AI engineering, covering Python, NLP, Transformers, and Large Language Models.
- Worked with modern frameworks such as LangChain and Hugging Face to build AI-driven applications.
- Gained practical experience integrating APIs and developing real-world AI solutions.

AI & ML — Great Learning

- Built a strong foundation in ML concepts: supervised and unsupervised learning, regression, classification, neural networks, and decision trees.
- Used Python and scikit-learn for data preprocessing, model building, and evaluation.
- Implemented mini-projects to apply theoretical knowledge to practical scenarios.

Deep Learning Using Python

- Explored machine learning concepts, neural networks, and image processing through practical applications.

- Used Python libraries including TensorFlow, NumPy, Pandas, Keras, PIL, and Matplotlib for data analysis and model development.

ROLES OF RESPONSIBILITY

Core Committee Member — Saturnalia & Helix, Thapar *2025 – 2026*

- Selected from a pool of 250+ applicants; served as Core Committee member for one event and Executive Committee member for another, organizing both technical and cultural fests.
- Led a team of volunteers for successful event execution; took responsibility for decision-making and event planning strategies.
- Supervised logistics, timelines, and task delegation across events.

Member — Markfin, Thapar *Aug 2024 – Jun 2025*

- Selected as 1 of 40 from a pool of 200+ applicants for the Markfin team.
- Conducted offline sponsor outreach, generating 20+ warm leads for event sponsors.
- Contributed to a collective ₹2+ lakh sponsorship pool through cold-emailing and outreach to brands across education, media, and consumer sectors.

Member — IETE, Thapar *2024 – 2025*

- Selected from a pool of 100 applicants; engaged as an active member assisting in organizing technical workshops, seminars, and student-driven initiatives.
- Contributed to the design department for team projects.

EXTRACURRICULAR ACTIVITIES & ACHIEVEMENTS

- Cleared the A1 and A2 levels of the Fit in Deutsch examination, conducted by the Goethe-Institut (affiliated with the Government of Germany).
- Participated in IoT and electronics workshops, gaining hands-on exposure to sensors, microcontrollers, and real-world applications.
- Secured recognition in an electronics/IoT-based competition, demonstrating practical problem-solving and technical skills.
- Actively participated in Model United Nations (MUNs) and Group Discussions, developing communication, critical thinking, and analytical skills through structured debates and discussions.
- Anchored events and managed stage proceedings, demonstrating confidence, leadership, and effective public speaking in front of large audiences.
